It might be interesting if not important to the reader to give Judge Fuller's proclamations in our advertising columns to-day a perusal.

The Legislature of Indiana meets to-day. Should there be no delay, in organizing, and we apprehend there will not be any, we shall probably receive the Governor's message in time for our next issue.

We would call the attention of our Merchants to the advertisement in this week's paper of the firm of WILLIAMS & HUESTIS, Wholesale Grocers, Fort Wayne, Ind. Their stock consists of a general assortment of Groceries—everything that is usually found in a store, except dry goods. Their connection with some of the best, oldest and well known Houses in the East (their facilities lying in their stock) unsurpassed by any other House in the West.

They are then free to furnish any thing in their line, freight considered, as low as can be bought in N. York, Cincinnati, Chicago, or any other Market.

Fort Wayne is now within two or three hours ride from this place, unimpeded by any change of cars. Merchants therefore, in this place and vicinity, can obtain any thing they may need in the line of Williams & Huestis, in a few hours, thereby avoiding the expense, delays and loss of time, occasioned by purchasing or ordering from a greater distance.

Williams & Huestis have, but one price, and those offering from them will obtain goods of the same quality and price, as if there in person to purchase.

If you would therefore save both money and time, purchase of Williams & Huestis, Wholesale Grocers, No. 53, Columbia street, Fort Wayne, Ind. (11a.6)

STATE FUNDS IN THE STATE BANK.—There will be the close of the Bank charter, the amount of the original subscriptions to the stock, of one million, and an accumulated fund of about \$2,000,000 amounting in all to about \$3,000,000, which might be invested in some way by which it can be preserved intact, and interest obtained on it for the use of the schools. The hungry political managers are already looking on it with envious eyes, and anticipating the day when it will fall under their control, and open an untapped field for speculation and embezzlement. If some strong, stringent guards are not placed around it before the new charter is passed, it will be absorbed like the State Lands by the prominent politicians. The management of it can be made a more profitable job than the bank charter, and one of ten thousand dollars paid for the keys of the State Treasury, by which they could get access to it, would be a "small consideration" for the privilege of handling it. If the people do not keep a watchful and anxious eye on this treasure, it will disappear in a flood of party corruption, breaking down the barriers of the law, as the ice of the Ohio was swept away by the spring currents of the river. [Evansville Journal.]

Lucy Stone, Blackwell has understood, says an exchange, become within the last few days, one of the mothers of America. "Rock the cradle, Lucy."

RELIGIOUS NOTICE.—Rev. A. G. Gossard, Rector of the Episcopal Church at Laporte, will preach at the Court-house in Plymouth, on Tuesday evening the 13th inst. Services to commence at half past six o'clock.
